FOOT PRINT (LxWxH)	3810mm x 2440mm x 2010mm
FOOT PRINT (LxWxH)	150" x 96" x 79"

The RB FLEX<sup>+</sup> immersion cleaning system is one of most flexible and scalable platforms that can be configured for a variety of parts and capacities from camshafts to locomotive engine blocks weighing over 20,000 lbs. The washer cleans using our patented washing and rinsing process of agitation, sprays impingement, hydraulic purging through immersion and rotation, and heated blow-off drying. Options such as clamp and flush, precision probes and manifolds or ultrasonics can be added if even more focused cleaning is required.
